

AI become a HR Staff

 11 March 2026 (Wednesday)
9:30am – 5:30pm
CPD Hours: 7

 Cantonese
(with English materials)

Enrol
NOW

This one-day workshop addresses critical HR pain points and explores the transformative potential of Artificial Intelligence (AI) in HR practices. Participants will learn how AI can streamline operations, enhance decision-making, and improve employee experiences, while also considering the limitations of AI in replacing human HR staff.

Learning Outcome

By the end of the workshop, participants will:

➤ **Understand AI Fundamentals and Relevance**

- Explain AI concepts and their significance in addressing HR challenges

➤ **Utilise AI Tools and Strategies**

- Identify AI-driven solutions for recruitment, onboarding, and performance management, and develop a strategic roadmap for integration

➤ **Analyse Data and Ethical Considerations**

- Use predictive analytics to inform HR decisions while recognising ethical implications and data privacy issues

➤ **Evaluate AI Limitations**

- Discuss areas where AI can enhance HR functions without replacing the need for human staff
