We are looking for top students who are passionate, committed, and eager to succeed - all degree disciplines are welcome.

About IT Audit

IT Audit specialists assist engagement teams in:

- determining the effect of information technology (IT) related risks on the audit;
- understanding these risks in relation to the IT control environments over the relevant financial reporting related applications and platforms; and
- determining an audit approach to respond to the risk of material misstatement as a result of the IT risks relevant to the financial statement audit.

Our professionals do this by leveraging our strong industry, IT control and technology focus and experience; deploying leading methodologies and tools; applying our objectivity; using a balanced approach to growth and risk; utilizing our comprehensive global breadth and local knowledge; and calling upon our deep understanding of relevant business, financial, and regulatory inter-dependencies.

Key Responsibilities

- Assist in research on IT audit and assurance engagements, with a focus on audit quality and audit innovation
- Support the Engagement manager with scoping, financial management, delivery of risk management activities and identification and communication of IT audit findings
- Contribute to the preparation of reports, presentations, and proposals to clients
- Collaborate with team members on ongoing client engagements and initiatives

Requirements

- All year of student from all disciplines, ideally accounting, business-related with information systems knowledge
- Fluency in both written and verbal English, Cantonese and Mandarin
- Good interpersonally and communication skills
- Passionate, committed, and eager to success
- Self-starters with good analytical and problem-solving skills

- Strong teamwork ability and able to work independently
- A permanent resident or have the right of abode in the location that you apply for

Internship period

June 2026 – August 2026 (Start and end date can be flexibly adjusted) (at least 8 weeks)
