About Financial Risk Management Advisory

KPMG's Financial Risk Management (FRM) team advises clients on the development and implementation of risk data analysis and models, risk management policies and procedures, systems and controls. Working with professionals from KPMG International and local network we offer a broad range of financial risk management services to help international banks, insurance companies, asset managers, and corporate and public clients identify, assess, manage, report, and limit the risks they face.

Our scope of work covers the full spectrum of financial risks, such as credit risk, market risk, operational risk and liquidity risk. There is a particular emphasis currently on the local and international regulatory and risk management initiatives. Our service scope includes but not limits to risk rating under IRB approach, RWA, BELR, stress testing, model validation, risk monitoring and etc. Clients include both local and global financial institutions, and especially there is a strong focus on Chinese financial institutions in Hong Kong.

KPMG HK provides multidisciplinary services from audit and tax to advisory, with a strong focus on serving our clients' needs and their industries. Not only do we have an overriding commitment to provide the highest quality services for our clients, but we also strive to become a responsible corporate citizen that has a positive impact on our environment and community. At KPMG, you will translate insights into action and reveal opportunities for all—our teams, our clients and our world.

About the role

We are looking for fresh graduates to join us. The corresponding duties will include professional day-to-day execution of FRM projects to financial institutions, in particular:

- Planning, implementation, and process optimization of credit risk management for financial institutions
- Developing tools to measure, monitor and report on financial risk issues
- Quantitative evaluation and management of credit risks
- Risk solution within the instruction of HKMA and other regulators
- Support Engagement Team in engagement planning, scheduling, coordination and administration of engagements
- Develop and maintain proactive and responsible working relationships with client personnel, and lead client meetings
