This one-day workshop addresses critical HR pain points and explores the transformative potential of Artificial Intelligence (AI) in HR practices. Participants will learn how AI can streamline operations, enhance decision-making, and improve employee experiences, while also considering the limitations of AI in replacing human HR staff.

Learning Outcome

By the end of the workshop, participants will:

- **Understand AI Fundamentals and Relevance**
 - Explain AI concepts and their significance in addressing HR challenges
- **Utilise AI Tools and Strategies**
 - Identify AI-driven solutions for recruitment, onboarding, and performance management, and develop a strategic roadmap for integration
- **Analyse Data and Ethical Considerations**
 - Use predictive analytics to inform HR decisions while recognising ethical implications and data privacy issues
- **Evaluate AI Limitations**
 - Discuss areas where AI can enhance HR functions without replacing the need for human staff
